

Insurance Disclaimer/Release

We try our best to figure out what insurance will and will not pay for our patients and the services rendered in this office.

Dental plans are designed to share in the cost of your dental care, not to entirely pay for your dental visits.

What this means to you is:

You have annual maximums and deductibles

Your portion may be higher or lower than estimated

Insurance may deny your treatment

Insurance may change the procedure code resulting in reduced amount paid by insurance

Insurance may have "clauses" resulting in reduced payments

Insurance may have "clauses" resulting in none payment

We sincerely want to emphasize to you, a need of awareness of your own dental insurance company, dental plan, policies, and procedures, however, we do not want those factors to determine your treatment decisions. Remember just because insurance may not pay for suggested treatment, does not mean treatment is not needed to maintain your oral health.

I understand I am financially responsible for all services rendered in this office, regardless of my insurance policy.

I also understand I am financially responsible to pay all deductibles and co payments on the appointment date when services are rendered.

I will pay my account in full if insurance takes longer than ninety days to process my claim.

If I have any insurance grievances I will call my dental insurance company, instead of contacting

Dr. Pease's office.
